Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

This is a great idea- I'm not always home to clean my sidewalk.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Respondent skipped this question

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Respondent skipped this question

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Keep up the good work !!

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

If a heavy snowfall falls on a Sunday

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not enough information/knowledge to comment.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Going good so far

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

The sweeper is no substitute for the shovel so sometimes compact snow is still on sidewalk. Some say grass is getting ripped up but mine has not been so can't say if it's a real issue.

99

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

None that I can think of at this time

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

In the older part of town the sidewalks are right beside the road. Any vehicle parked there will make it almost impossible for the sidewalk to be cleared without the vehicle being hit.

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

It would be great but ruining my front lawn is not worth it.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Stay on the sidewalk. The town will not like having to fix peoples lawns because the one removing the snow is driving up onto my lawn about 2 feet.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Inform whos removing the snow to be considerate of peoples properties.

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Have By Law Inforce the ice on side walks. Still today there are houses in the sea of 48 ave and 44 st that have ice on the walk ways.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

The town side is great. Home owners need to be ticketed for not clearing the ice. This has been a major issue for the 10 yrs that we have lived in town.

102

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

The person doing this drove over our lawn and after we had cleaned our driveway they swept the snow from the sidewalk onto our clean driveway. The grass from the lawn was all over our driveway too. I DO NOT want my taxes to go up over this. It is not a necessity. We don't need it. To me it is a luxury. What about weekends when it snows? Are they coming out then? Are we paying a company or is this a make work project for the Town workers? As citizens we have no information or answers to these questions. We can do our own sidewalks.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

See previous answer.

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

Snow removal was decent in my area. But the ice was ridiculous. With this pilot project I believe homeowners didn't think the sidewalk in front of their house was any of their concern anymore. Slipping and falling on the sidewalk isn't fun at any age

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Read previous Comment about all the ice on the sidewalk. Either they should take care of the sidewalks completely or not at all

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

The time of day they started..... all the kids already went to school by the time they were getting to the sidewalks. Those poor kids had to mostly walk in the middle of the road. What's the point of that?!

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

With home ownership comes responsibilities. Following the town bylaws and shoveling the snow on your sidewalk is part of that. If people are not clearing their walks, they should be charged and that money could be used to hire some of the youth (or whoever in town that have some initiative) to shovel the walks.

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

We shovel our walks as expected. The town cleaner has been over my walks twice and the tires have left trails of packed snow/ice that I had to scrap off my walk.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Respondent skipped this question

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not enough information/knowledge to comment.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Not sure there anything to base a change against yet, in guessing this is a huge waste of money that could be used else where

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

How much snow would constitute being removed by the town?

107

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

Concerns - costs, equipment needed, equipment repairs, staffing,

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

We have only had snow removal a couple of times so two soon to say. Interesting I get my sidewalk cleaned but my road did not get cleared. Are sidewalks now a priority.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Council members told me this was to fix a " " problem. Then we are fixing the wrong problem, and we are speaking publicly about a contractor of the town that is no a good business practice. Fix the problem.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Neighbours should help neighbours. I believe there is a sidewalk cleaning by law. Add it to the taxes and then clean the ones that need cleaning. If staff has to come in on a weekend to do snow removal they then have to get a day and a half of during the week. Sometimes we have to clean our walks 3 or 4 times a day. That could be a lot of man hours for the town and wear on equipment. This is real cost for something that I believe 90+% of the residents were already doing. Don't fix the wrong problem.

Not Supportive

Comments::

Still is my opinion

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

The Town should not even have tried this. We are quite capable of doing our own shoveling. The ones that didn't shovel before don't look after the ice on their walks, so no further ahead.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

They don't do the entire sidewalk. In our area they only did a portion. The rest weren't done so we had to shovel anyway

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

How much snow would constitute being removed by the town?

(112)

Page 1: Sidewalk Clearing Pilot Project

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

Don't need it. Taxes are high enough. Town has to find jobs for the too many man crew sitting around.

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

I like to get out early as possible before foot traffic packs down the snow. Not sure if you are aware it may snow on weekends. Is this overtime? Sure don't want taxes to go up in a town we are already paying way too much.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Scrap it as we don't need it. Lay off a guy put him or her on a call in basis. Look at the big picture save money.

Q4

What are areas of concern that you have noted with respect to this pilot project Initiative:

Town has cleared snow twice once was early enough but drove on my lawn 3 strip. Also left behind big chunks on driveway. Came home couldn't just shovel off had to chip away as it froze to the cement. I feel this is a create work program for the guys that would not have anything to do. Also please note on Thursday November 29 a crew out with a grader, Bobcat, and a guy in the pickup sand truck sitting watching as the equipment scrapes the little bit of ice. Again wow my hard earned money in taxes at work. Oh I was the the only person noticing this at the time. Everyone around me at the store said the same. Maybe have a casual person and lay off one or two and call in when needed instead of creating jobs.

(113)

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

Its a waste of my taxes. Most sidewalk frontage is fifty feet, which take maybe 10 - 15 minutes for residents to shovel. Most residents and some prominent business owners are too lazy to shovel their sidewalks. The town has a bylaw for snow shoveling, maybe start enforcing it.

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Just enforce your snow shoveling bylaw. That's whats it was written for. The maintenance department shouldn't using this as a make work project for staff. If they are over staffed, then lay off and rehire in spring.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Could also set the town up for lawsuits, which the town can't afford. Enforce your bylaw, have some balls.

114

Page 1: Sidewalk Clearing Pilot Project

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

Don't need it. Taxes are high enough. Town has to find jobs for the too many man crew sitting around.

115

Page 11: Sidewalk Clearing Pilot Project

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not enough information/knowledge to comment.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Doing it within their budget. If you have people working anyway and need to fill their day. Don't let it become an extra expense. Monitor equipment repairs and cost and overtime hours.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

It takes each of us about 5 minutes to do the side walk in front of our house. Council needs to look at ways of becoming more frugal. Spend wisely.

116

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Comments::

I know there are senior citizens in the town that need help clearing their sidewalks, but really does the average person need this service.

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

From what I've seen, the job is not good, they run by the property without caring if they do. Good job. Does a town this size need 5 employees full time?

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Stop it! No need to create job to hire more employees.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Taxes in this town are outrageous, spending is out of control for Council, Administration and Public Works considering most projects are contracted out. To have so many employees on the payroll is unreasonable for Public Works and the Administration. Only 1 employee on the payroll is a ratepayer and resident within the town.

When does it stop. Hopefully before the town is broke.

(117)

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Comments::

My first thought was great and how is this being paid for? Also, as I don't have a sidewalk in front of my house would I have to pay and does this removal include making sure there is no snow piled in front of my house causes water to pool and ice occurs because there is no place for the water to go.

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not enough information/knowledge to comment.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

I don't know. I think it will help to keep our citizens safe, especially children walking to school.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

As I stated in the first question, How will the pooling of water be addressed when snow melts on the streets that have no sidewalks and snow is piles in front of houses. The town does a good job of removing snow and clears entrances to home sidewalks. However, it gets dangerous to walk up to the house when ice accumulated between the snow piles.

Page 1: Sidewalk Clearing Pilot Project

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Comments::

When they drove backwards they brought snow back on sidewalk, and to shovel the sidewalk again

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Maybe check work before moving on to the next job. and we had just shoveled path to street and the grader went by and plowed it in again. Maybe they could check for things like that. use common sense

Q4

When we were at a certain station we had a problem with the snow on the sidewalk. The grader went by and plowed it in again. Maybe they could check for things like that. use common sense

what are areas of concern that you have noted with respect to this pilot project initiative:

see last comment

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project?

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Successful

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

I like not having to shovel my walk, thank you

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

I was worried the snow would be pushed onto my driveway, but I haven't had any problems.

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Supportive as long as it does not increase taxes

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Not enough information/knowledge to comment.

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

As I do not reside there I can not comment. The property I own is rented and the renter has advised that the sidewalks are being clear. What I do know, is that the sidewalks are the originals from 40 years ago and I am sure they need repair/replacing. It appears 47Avenue is off the radar as far as the town council is concerned even though our taxes constantly go up, but we on this avenue see nothing in the way fo improvements/repairs. They apparently now even screwed up the road construction.

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

I see this as another tax increase grab down the line. It is great for all the seniors living there, but of course all the tax payers will PAY in the end. Nothing with this town is free or done out of the goodness of their hearts.

Q1

Without knowing all the background, what was your first reaction to hearing that the Town had initiated this pilot project:

Not Supportive

Q2

What is your feedback on what you have seen or experienced with this pilot project thus far:

Comments::

Sidewalks are not cleared properly. Packed snow is left for the homeowner to deal with!

Q3

What changes would you recommend the Town undertake that would enhance or improve this pilot project initiative:

Any improvements to this project would be very costly. Drop it!

Q4

What are areas of concern that you have noted with respect to this pilot project initiative:

Cost, inability to clear sidewalks properly. All the responsible property owners have always cleaned their sidewalks in the past and would continue to do so. Not sure why the Town would take on this project when it has been the same irresponsible property owners that never clear their walk! Fine them!
